

# Contents

<b>Function, Form and Focus: The Role of Tasks in Elementary Mathematics Teacher Education</b> . . . . .	1
Barbro Grevholm, Richard Millman, and Barbara Clarke	
<b>Section A Tasks as a Tool for Exploring the Cyclical Nature of Learning and Developing Reflection in the Teaching of Mathematics</b>	
<b>Using Lesson Study to Develop an Appreciation of and Competence in Task Design</b> . . . . .	11
Joanne Lieberman	
<b>Reflecting on the Process of Task Adaptation and Extension: The Case of Computational Starters</b> . . . . .	25
Theresa J. Grant and Jane-Jane Lo	
<b>Tasks for Primary Student Teachers: A Task of Mathematics Teacher Educators</b> . . . . .	37
Victoria Sánchez and Mercedes García	
<b>The Mathematics Teaching Portfolio: A Reflective Tool for Developing Professional Growth and Improving Classroom Practices</b> . . . . .	51
Rose Spanneberg	
<b>Section B Tasks as a Tool for Developing Mathematical Knowledge for Teaching</b>	
<b>Pushing Probability and Statistics Tasks in a New Direction</b> . . . . .	71
Dan Canada	
<b>Logic in Wonderland: <i>Alice's Adventures in Wonderland</i> as the Context of a Course in Logic for Future Elementary Teachers</b> . . . . .	85
Nitsa Movshovitz-Hadar and Atara Shriki	

<b>Tasks using Video Clips of Children in a Content Mathematics Course for Future Elementary School Teachers</b> . . . . .	105
Richard Millman, Kelly Svec, and Dana Williams	
<b>Teacher Tasks for Mathematical Insight and Reorganization of What it Means to Learn Mathematics</b> . . . . .	113
George Gadanidis and Immaculate Namukasa	
<b>Teaching and Understanding Mathematical Modelling through Fermi-Problems</b> . . . . .	131
Andrea Peter-Koop	
<b>A Research-Based Workshop Design for Volume Tasks</b> . . . . .	147
Mariana Sáiz and Olimpia Figueras	
<b>Task-Based Lessons: The Central Focus of a Mathematics Content Course for Future Elementary Teachers</b> . . . . .	161
Anne R. Teppo	
<b>Section C Tasks as a Tool for Developing Knowledge through and for Practice</b>	
<b>The Use of Relational Games in Initial Teacher Education: Bringing the Classroom into the Lecture Theatre</b> . . . . .	177
Solange Amorim Amato	
<b>Using Mathematically Rich Tasks to Deepen the Pedagogical Content Knowledge of Primary Teachers</b> . . . . .	197
George Ashline and Regina Quinn	
<b>From Professional Tasks in Collaborative Environments to Educational Tasks in Mathematics Teacher Education</b> . . . . .	215
José Carrillo and Nuria Climent	
<b>The Analysis of Classroom-Based Processes as a Key Task in Teacher Training for the Approach to Early Algebra</b> . . . . .	235
Nicolina A. Malara and Giancarlo Navarra	
<b>Outdoor Mathematical Experiences: Constructivism, Connections, and Health</b> . . . . .	263
Meg Moss	
<b>From Teacher Education to Teacher Practice: A Gap Affecting the Implementation of Tasks</b> . . . . .	275
Pedro Palhares, Alexandra Gomes, Paulo Carvalho, and Valter Cebolo	
<b>Concluding Remarks</b> . . . . .	285
Barbara Clarke, Barbro Grevholm, and Richard Millman
