Preface	v
Acknowledgments	vii
Contributors	xi

Part I BOLD Functional MRI

1 Principles of Functional MRI	3
<i>Seong-Gi Kim and Peter A. Bandettini</i>	
2 fMRI Scanning Methodologies	24
<i>Alexander B. Pinus and Feroze B. Mohamed</i>	
3 Experimental Design and Data Analysis for fMRI	58
<i>Geoffrey K. Aguirre</i>	
4 Challenges in fMRI and Its Limitations	75
<i>R. Todd Constable</i>	
5 Clinical Challenges of fMRI	99
<i>Nader Pouratian and Susan Y. Bookheimer</i>	

Part II Neuroanatomical Atlas

6 Neuroanatomical Atlas	127
<i>Feroze B. Mohamed and Scott H. Faro</i>	

Part III fMRI Clinical Applications

7 Brain Mapping for Neurosurgery and Cognitive Neuroscience	139
<i>Joy Hirsch</i>	
8 Applications of fMRI to Psychiatry	183
<i>Deborah A. Yurgelun-Todd, Perry F. Renshaw, and Lisa A. Femia</i>	

9	fMRI of Memory in Aging and Dementia	221
	<i>Andrew J. Saykin and Heather A. Wishart</i>	
10	fMRI of Language Systems: Methods and Applications . . .	245
	<i>Jeffrey R. Binder</i>	
11	fMRI Wada Test: Prospects for Presurgical Mapping of Language and Memory	278
	<i>Brenna C. McDonald, Andrew J. Saykin, J. Michael Williams, and Bassam A. Assaf</i>	
12	fMRI of Epilepsy	315
	<i>Karsten Krakow</i>	
13	fMRI of the Visual Pathways	342
	<i>Atsushi Miki, Grant T. Liu, and Scott H. Faro</i>	
14	fMRI of the Auditory Cortex	364
	<i>Deborah A. Hall</i>	
15	Pediatric Applications of fMRI	394
	<i>Nolan R. Altman and Byron Bernal</i>	
16	fMRI of Clinical Pain	429
	<i>Karen D. Davis</i>	
17	Pharmacological Applications of fMRI	444
	<i>Betty Jo Salmeron and Elliot A. Stein</i>	
18	Cognitive Neuroscience Applications	468
	<i>Mark D'Esposito</i>	
19	Clinical Overview and Future fMRI Applications	496
	<i>Scott H. Faro and Feroze B. Mohamed</i>	
	Appendix	
	Independent Component Analysis and fMRI Imaging	503
	<i>Christopher G. Green, Victor Haughton, and Dietmar Cordes</i>	
	Index	517
