Foreword I by Brian Lentle .....	vii
Foreword II by Martin Reivich .....	ix
Preface .....	xi
Contributors .....	xix

## Section 1 Basic Science and Practical Issues

1 The Nuclear Imaging Technologist and the Pediatric Patient .....	3
<i>Maria Green</i>	
2 Sedation of the Pediatric Patient .....	21
<i>Robin Kaye</i>	
3 The Biologic Effects of Low-Level Radiation .....	30
<i>Martin Charron</i>	
4 Dosage of Radiopharmaceuticals and Internal Dosimetry .....	37
<i>Xiaowei Zhu</i>	
5 Pediatric PET Research Regulations .....	47
<i>Geoffrey Levine</i>	
6 Issues in the Institutional Review Board Review of PET Scan Protocols .....	59
<i>Robert M. Nelson</i>	
7 Ethics of PET Research in Children .....	72
<i>Suzanne Munson, Neir Eshel, and Monique Ernst</i>	

8	Physics and Instrumentation in PET <i>Roberto Accorsi, Suleman Surti, and Joel S. Karp</i>	92
9	How to Image a Child by PET–Computed Tomography <i>Sue C. Kaste and M. Beth McCarville</i>	121
10	Coincidence Imaging <i>Girish Bal, Stefaan Vandenberghe, and Martin Charron</i>	135

## Section 2 Oncology

11	Brain Tumors <i>Michael J. Fisher and Peter C. Phillips</i>	175
12	Lymphoma <i>Christopher J. Palestro, Josephine N. Rini, and Maria B. Tomas</i>	220
13	Neuroblastoma <i>Barry L. Shulkin</i>	243
14	Wilms' Tumor <i>Sue C. Kaste and Jeffrey S. Dome</i>	256
15	Primary Bone Tumors <i>Robert Howman-Giles, Rodney J. Hicks, Geoffrey McCowage, and David K. Chung</i>	267
16	Soft Tissue Sarcomas <i>Marc P. Hickeson</i>	302
17	Other Tumors <i>Jian Qin Yu and Martin Charron</i>	312

## Section 3 Neurology and Psychiatry

18	The Developing Brain <i>Lorcan A. O'Tuama and Paul R. Jolles</i>	323
19	Neurodevelopmental and Neuropsychiatric Disorders <i>Marianne Glanzman and Josephine Elia</i>	334
20	Epilepsy <i>Nicolaas I. Bohnen and James M. Mountz</i>	361
21	Neurotransmitter Imaging <i>Alan J. Fischman and Rajendra D. Badgaiyan</i>	385

## Section 4 Other Applications

22	Cardiovascular Applications . . . . .	407
	<i>Miguel Hernandez-Pampaloni</i>	
23	Fever of Unknown Origin . . . . .	428
	<i>Hongming Zhuang and Ghassan El-Haddad</i>	
24	Infection and Inflammation . . . . .	448
	<i>Marc P. Hickeson</i>	
25	Inflammatory Bowel Disease . . . . .	461
	<i>Jean-Louis Alberini and Martin Charron</i>	
26A	Hyperinsulinism of Infancy: Noninvasive Differential Diagnosis . . . . .	472
	<i>Maria-João Santiago-Ribeiro, Nathalie Boddaert, Pascale De Lonlay, Claire Nihoul-Fekete, Francis Jaubert, and Francis Brunelle</i>	
26B	Hyperinsulinism of Infancy: Localization of Focal Forms . . . . .	479
	<i>Olga T. Hardy and Charles A. Stanley</i>	
27	Multimodal Imaging Using PET and MRI . . . . .	485
	<i>Thomas Pfluger and Klaus Hahn</i>	
28	Current Research Efforts . . . . .	502
	<i>Fabio Ponzo and Martin Charron</i>	

## Section 5 Imaging Atlas

29	PET–Computed Tomography Atlas . . . . .	527
	<i>M. Beth McCarville</i>	
30	Common Artifacts on PET Imaging . . . . .	543
	<i>Peeyush Bhargava and Martin Charron</i>	
	Index . . . . .	565
