

# Contents

<b>Foreword</b> .....	v
<b>Preface</b> .....	vii
<b>About the Editors</b> .....	xi
<b>Contributors</b> .....	xiii
<b>1 Fuel Cell Fundamentals</b> .....	1
S.M. Javaid Zaidi and M. Abdur Rauf	
<b>2 Research Trends in Polymer Electrolyte Membranes for PEMFC</b> .....	7
S.M. Javaid Zaidi	
<b>3 Fuel Cell Technology Review</b> .....	27
A.F. Ismail, R. Naim, and N.A. Zubir	
<b>4 Development of Sulfonated Poly(ether-ether ketone)s for PEMFC and DMFC</b> .....	51
Dae Sik Kim and Michael D. Guiver	
<b>5 Fuel Cell Membranes by Radiation-Induced Graft Copolymerization: Current Status, Challenges, and Future Directions</b> .....	87
Mohamed Mahmoud Nasef	
<b>6 Design and Development of Highly Sulfonated Polymers as Proton Exchange Membranes for High Temperature Fuel Cell Applications</b> .....	115
Thuy D. Dang, Zongwu Bai, and Mitra Yoonessi	
<b>7 Polymer Composites for High-Temperature Proton-Exchange Membrane Fuel Cells</b> .....	159

	Xiuling Zhu, Yuxiu Liu, and Lei Zhu	
<b>8</b>	<b>Blend Concepts for Fuel Cell Membranes</b> . . . . .	185
	Jochen Kerres	
<b>9</b>	<b>Organic-Inorganic Membranes for Fuel Cell Application</b> . . . . .	223
	Suzana Pereira Nunes	
<b>10</b>	<b>Thermal and Mechanical Properties of Fuel Cell Polymeric Membranes: Structure–Property Relationships</b> . . . . .	235
	Ibnelwaleed A. Hussein and S.M. Javaid Zaidi	
<b>11</b>	<b>Membrane and MEA Development in Polymer Electrolyte Fuel Cells</b> . . . . .	253
	Panagiotis Trogadas and Vijay Ramani	
<b>12</b>	<b>Carbon-Filled Polymer Blends for PEM Fuel Cell Bipolar Plates</b> . . . . .	281
	Leon L. Shaw	
<b>13</b>	<b>Critical Issues in the Commercialization of DMFC and Role of Membranes</b> . . . . .	307
	Hyuk Chang, Haekyoung Kim, Yeong Suk Choi, and Wonmok Lee	
<b>14</b>	<b>Modified Nafion as the Membrane Material for Direct Methanol Fuel Cells</b> . . . . .	341
	Jun Lin, Ryszard Wycisk, and Peter N. Pintauro	
<b>15</b>	<b>Methanol Permeation Through Proton Exchange Membranes of DMFCs</b> . . . . .	361
	M. Bello, S.M. Javaid Zaidi, and S.U. Rahman	
<b>16</b>	<b>Systematic Design of Polymer Electrolyte Membranes for Fuel Cells Using a Pore-Filling Membrane Concept</b> . . . . .	385
	Takeo Yamaguchi	
<b>17</b>	<b>Research and Development on Polymeric Membranes for Fuel Cells: An Overview</b> . . . . .	401
	Dipak Rana, Takeshi Matsuura, and S.M. Javaid Zaidi	
<b>Index</b>		421
