Contents

Dedication, *by Tenley E. Albright* v
Foreword, *by Richard D. Klausner* vii
Series Preface xi
Editors' Preface xiii
Acknowledgments xvii
Contributors xxiii

SECTION 1 THE VISION
John S. Silva, Marion J. Ball, and Judith V. Douglas
Section Editors

INTRODUCTION Envisioning a National Cancer Information and Knowledge Environment 3
John S. Silva

CHAPTER 1 Translating Cancer Research into Cancer Care: Final Report of the Long Range Planning Committee 5
Long Range Planning Committee

CHAPTER 2 Visions of the Future 17
Long Range Planning Committee

CHAPTER 3 Clinical Trials in Practice 33
L. Michael Glodé

SECTION 2 THE INFRASTRUCTURE

William L. Scherlis
Section Editor

INTRODUCTION Developing and Improving the Informatics Infrastructure to Support Clinical Research 47
William L. Scherlis

CHAPTER 4 Cancer Informatics: Lessons from the World of e-Business 51
Jay M. Tenenbaum

CHAPTER 5 Security and Privacy 70
Clifford Neuman

CHAPTER 6 Digital Libraries and Scholarly Communication 79
Ronald L. Larsen and Jean Scholtz

SECTION 3 STANDARDS AND VOCABULARY

Christopher G. Chute and Curtis P. Langlotz
Section Editors

INTRODUCTION The Spectrum of Existing and Emerging Health Data Standards: Their Relevance and Application to Cancer Information 99
Christopher G. Chute and Curtis P. Langlotz

CHAPTER 7 Cancer Data, Information Standards, and Convergent Efforts 102
Christopher G. Chute

CHAPTER 8 Toward Terminology as Infrastructure 106
Mark S. Tuttle, Keith E. Campbell, Kevin D. Keck, and John S. Carter

CHAPTER 9 Clinical Terminologies for Data Analysis and Structured Data Entry 122
Walter Sujansky

CHAPTER 10 Information Standards Within the National Cancer Institute 135
Francis W. Hartel and Sherri de Coronado

CHAPTER 11 CDE Development Model for Chest CT Screening for Lung Cancer 157
Curtis P. Langlotz

CHAPTER 12 Pathology Standards in Cancer Informatics 166
Kent A. Spackman and M. Elizabeth Hammond

CHAPTER 13 Clinical Information Interchange with Health Level Seven 176
Stanley M. Huff, W. Ed Hammond, and Warren G. Williams

CHAPTER 14 The Health Level Seven Reference Information Model 194
Abdul-Malik Shakir

CHAPTER 15 HIPAA Administrative Simplification Standards: Provisions of the Final Privacy Rule Related to Clinical Trials 206
William R. Braithwaite

CHAPTER 16 Toward a Shared Representation of Clinical Trial Protocols: Application of the GLIF Guideline Modeling Framework 212
Robert A. Greenes, Samson Tu, Aziz A. Boxwala, Mor Peleg, and Edward H. Shortliffe

CHAPTER 17 Informatics for Cancer Prevention and Control 229
Robert A. Hiatt

SECTION 4 THEORY INTO PRACTICE
Joyce C. Niland
Section Editor

INTRODUCTION Moving Toward the Vision: Putting Applications in Place 245
Joyce C. Niland

CHAPTER 18 Selection of Oncology Information Systems 250
Mitchell Morris

CHAPTER 19 Clinical State Diagrams and Informatics Tools for Clinical Trial Protocols 270
John H. Gennari

CHAPTER 20 Support for the Cancer Patient: An Internet Model 280
Howard S. Goldberg and Charles Safran

CHAPTER 21 Increasing Clinical Trial Awareness and Accrual Via the Web 293
Joyce C. Niland and Douglas C. Stahl

CHAPTER 22 *ClinicalTrials.gov*: Linking Patients to Medical Research 302
Alexa T. McCray

CHAPTER 23 The National Cancer Institute's net-Trials™ 308
Dianne M. Reeves and Douglas Hageman

CHAPTER 24 iN: A Community-Based Cancer Informatics and Clinical Trials Network 317
Donald W. Simborg

CHAPTER 25 Consumer Health Informatics 329
Deborah K. Mayer and Susan M. Hubbard

CHAPTER 26 An Internet-Based Data System for Outcomes Research 355
Joyce C. Niland

Index 369
