Foreword by <i>Thomas P. Green and George Lister</i>	v
Preface: “Promises to Keep”	vii
Acknowledgments	ix
Contributors.....	xix
A Tribute to Peter J. Safar, MD by <i>John J. Downes</i>	xxxvii

Section I The Practice of Pediatric Critical Care Medicine

1 Development of Pediatric Critical Care Medicine—How Did We Get Here and Why?	3
<i>John J. Downes</i>	
2 Epidemiology of Critical Illness	31
<i>R. Scott Watson and Mary E. Hartman</i>	
3 Ethics in the Pediatric Intensive Care Unit	36
<i>K. Sarah Hoehn and Robert M. Nelson</i>	
4 The Patient’s Family in the Pediatric Intensive Care Unit	43
<i>Sol J. Goldstein and I. David Todres</i>	
5 Scoring Systems in Critical Care	51
<i>Thomas J. Cholis, III and Murray M. Pollack</i>	
6 Outcomes and Quality: Definitions, Assessment, and Analysis	55
<i>Susan L. Bratton and James P. Marcin</i>	
7 Pediatric Intensive Care Unit Administration	63
<i>Lorry R. Frankel</i>	
8 Nursing Care in the Pediatric Intensive Care Unit	68
<i>Franco A. Carnevale</i>	
9 The Physician–Scientist in the Pediatric Intensive Care Unit	72
<i>Thomas P. Shanley</i>	
10 Resident and Nurse Education in the Pediatric Intensive Care Unit	77
<i>Girish G. Deshpande, Gwen Lombard, and Adalberto Torres, Jr.</i>	
11 Evidence-Based Medicine in the Pediatric Intensive Care Unit	82
<i>Adrienne G. Randolph</i>	
12 Patient Safety in the Pediatric Intensive Care Unit	88
<i>David C. Stockwell and Anthony D. Slonim</i>	
13 Pediatric Critical Care in Developing Countries	94
<i>Gregory L. Stidham and William M. Novick</i>	
14 The Pediatric Intensive Care Unit of the Future: Technological Advances in Pediatric Critical Care Medicine	102
<i>Kenneth Tegtmeier</i>	

Section II The Science of Pediatric Critical Care Medicine

15	Molecular Biology in the Pediatric Intensive Care Unit	111
	<i>Lesley A. Doughty</i>	
16	Genetic Polymorphisms in Critical Care and Illness	134
	<i>Mary K. Dahmer and Michael W. Quasney</i>	
17	Signal Transduction Pathways in Critical Illness and Injury	150
	<i>Timothy T. Cornell and Thomas P. Shanley</i>	
18	Proinflammatory and Antiinflammatory Mediators in Critical Illness	159
	<i>Daniel G. Remick</i>	
19	Endogenous Cytoprotective Mechanisms	166
	<i>Hector R. Wong</i>	
20	Ischemia-Reperfusion Injury	175
	<i>Basilia Zingarelli</i>	

Section III Resuscitation and Stabilization of the Critically Ill Child

21	Emergency Medical Services for Children	189
	<i>Derek S. Wheeler and Tom LeMaster</i>	
22	Pediatric Cardiopulmonary Resuscitation	202
	<i>Vinay M. Nadkarni and Robert A. Berg</i>	
23	Supplemental Oxygen and Bag-Valve-Mask Ventilation	217
	<i>Patricia Abboud, Jennifer Raake, and Derek S. Wheeler</i>	
24	Assessment and Management of the Pediatric Airway	223
	<i>Derek S. Wheeler, James P. Spaeth, Renuka Mehta, Suriyanarayana P. Hariprakash, and Peter N. Cox</i>	
25	Vascular Access	253
	<i>Jennifer Kaplan and Richard J. Brill</i>	
26	Shock: An Overview	274
	<i>Joseph A. Carcillo, Derek S. Wheeler, Neil W. Kooy, and Thomas P. Shanley</i>	
27	Acute Respiratory Failure	299
	<i>Jennifer L. Turi and Ira M. Cheifetz</i>	
28	Pediatric Transport Medicine	308
	<i>Derek S. Wheeler and W. Bradley Poss</i>	
29	Withdrawal of Life Support	320
	<i>Kathleen L. Meert and Ashok P. Sarnaik</i>	
30	Brain Death	324
	<i>Sam D. Shemie</i>	
31	The Pathophysiology of Brain Death and Care of the Potential Organ Donor	333
	<i>Sam D. Shemie</i>	

Section IV The Respiratory Tract in Critical Illness and Injury

32	Respiratory Physiology	349
	<i>Howard E. Jeffries and Lynn D. Martin</i>	
33	Disorders of the Pediatric Chest	361
	<i>Margaret A. Chase and Derek S. Wheeler</i>	
34	Respiratory Monitoring	376
	<i>John Marcum and Christopher J.L. Newth</i>	
35	Bronchoscopy in the Pediatric Intensive Care Unit	390
	<i>Robert E. Wood</i>	
36	Acute Lung Injury and Acute Respiratory Distress Syndrome	395
	<i>Michael Vish and Thomas P. Shanley</i>	

37	Mechanical Ventilation	412
	<i>Alik Kornecki and Brian P. Kavanagh</i>	
38	Ventilator-Induced Lung Injury	426
	<i>Shinya Tsuchida and Brian P. Kavanagh</i>	
39	Prone Positioning	432
	<i>Nilesh M. Mehta and Martha A.Q. Curley</i>	
40	High-Frequency Oscillatory Ventilation	442
	<i>Kathleen M. Ventre and John H. Arnold</i>	
41	Pulmonary Surfactant: Biology and Therapy	453
	<i>Douglas F. Willson, Patricia R. Chess, Zhengdong Wang, and Robert H. Notter</i>	
42	Nitric Oxide	467
	<i>Emily L. Dobyms and Eva N. Grayck</i>	
43	Extracorporeal Life Support for Children With Acute Respiratory Failure	473
	<i>Heidi J. Dalton and Angela T. Wratney</i>	
44	Diseases of the Upper Respiratory Tract	485
	<i>Renuka Mehta, Suriyanarayana P. Hariprakash, Peter N. Cox, and Derek S. Wheeler</i>	
45	Congenital Airway and Respiratory Tract Anomalies	506
	<i>Michael J. Rutter</i>	
46	Status Asthmaticus	512
	<i>Derek S. Wheeler, Kristen Page, and Thomas P. Shanley</i>	
47	Bronchiolitis	537
	<i>Ann Marie LeVine</i>	
48	Pneumonia and Empyema	544
	<i>Imad Y. Haddad and David N. Cornfield</i>	
49	Pediatric Lung Transplantation	554
	<i>David N. Cornfield and Imad Y. Haddad</i>	
50	Neuromuscular Respiratory Failure	560
	<i>Margaret F. Guill and Thomas P. Shanley</i>	
51	Diseases of the Pulmonary Vascular System	570
	<i>Peter Oishi and Jeffrey R. Fineman</i>	
Section V The Cardiovascular System in Critical Illness and Injury		
52	Developmental Cardiac Physiology	591
	<i>Keith C. Kocis, Ana Lia Graciano, and Jon N. Meliones</i>	
53	Hemodynamic Monitoring	602
	<i>Shane M. Tibby</i>	
54	Cardiopulmonary Interactions	622
	<i>Desmond J. Bohn</i>	
55	Echocardiography in the Pediatric Critical Care Setting	644
	<i>William L. Border, Erik C. Michelfelder, Kan Hor, and Dianna S. Meredith</i>	
56	Cardiac Catheterization in the Pediatric Critical Care Setting	651
	<i>Russell Hirsch and Robert H. Beekman, III</i>	
57	Introduction to Congenital Heart Disease: Nomenclature and Classification	665
	<i>James D. St. Louis</i>	
58	Palliative Procedures	668
	<i>Mark A. Scheurer and Andrew M. Atz</i>	
59	Congenital Heart Disease: Left-to-Right Shunt Lesions	672
	<i>Derek S. Wheeler, James D. St. Louis, and Catherine L. Dent</i>	

60	Congenital Heart Disease: Cyanotic Lesions with Decreased Pulmonary Blood Flow	679
	<i>John M. Costello and Peter C. Laussen</i>	
61	Congenital Heart Disease: Left Ventricular Outflow Tract Obstruction	692
	<i>John R. Charpie, Dennis C. Crowley, and Joseph N. Graziano</i>	
62	Congenital Heart Disease: Cyanotic Lesions with Increased Pulmonary Blood Flow	700
	<i>Peter B. Manning and James D. St. Louis</i>	
63	Single-Ventricle Lesions	706
	<i>Steven M. Schwartz, David P. Nelson, Catherine L. Dent, Ndidi L. Musa, and Derek S. Wheeler</i>	
64	Vascular Rings and Associated Malformations	716
	<i>Carl L. Backer, Constantine Mavroudis, and Lauren D. Holinger</i>	
65	Cardiopulmonary Bypass	727
	<i>Kelly M. McLean, John P. Lombardi, and Jeffrey M. Pearl</i>	
66	Pediatric Myocardial Protection	742
	<i>Jeffrey M. Pearl, Jodie Y. Duffy, and Kelly M. McLean</i>	
67	Postoperative Care of the Pediatric Cardiac Surgical Patient	752
	<i>Catherine L. Dent and Steven M. Schwartz</i>	
68	Mechanical Support of the Cardiovascular System: Extracorporeal Life Support/Extracorporeal Membrane Oxygenation and Ventricular Assist Devices	765
	<i>Heidi J. Dalton and Brian W. Duncan</i>	
69	Mechanical Support of the Cardiovascular System: Intraaortic Balloon Pumping in Children	777
	<i>L. LuAnn Minich and John A. Hawkins</i>	
70	Arrhythmias	785
	<i>Timothy K. Knilans</i>	
71	Inflammatory Diseases of the Heart and Pericardium: Infective Endocarditis and Kawasaki Disease	798
	<i>Michael H. Gewitz and Gary M. Satou</i>	
72	Inflammatory Diseases of the Heart and Pericardium: Dilated Cardiomyopathy and Myocarditis	808
	<i>Henry B. Wiles, Neil W. Kooy, and Derek S. Wheeler</i>	
73	Diseases of the Pericardium	821
	<i>Michael H. Gewitz, Gary M. Satou, and Derek S. Wheeler</i>	
74	Management of Hypertension in the Pediatric Intensive Care Unit	828
	<i>Marianne N. Majdalani and Neil W. Kooy</i>	
75	Heart Transplantation	841
	<i>Shamel Abd-Allah and Paul A. Checchia</i>	
Section VI The Central Nervous System in Critical Illness and Injury		
76	Central Nervous System Monitoring	865
	<i>Michael J. Bell and Taeun Chang</i>	
77	Molecular Biology of Brain Injury	872
	<i>Michael J. Whalen, Phoebe Yager, Eng H. Lo, Josephine Lok, and Natan Noviski</i>	
78	Pediatric Intensive Care Unit Management of Neurosurgical Diseases	884
	<i>Darlene A. Lobel, Mark R. Lee, and Ann-Christine Duhaime</i>	
79	Tumors of the Central Nervous System	894
	<i>Robert Tamburro, Raymond C. Barfield, and Amar Gajjar</i>	

80	Intracranial Hypertension	902
	<i>Steven G. Kernie and Samuel M. Lehman</i>	
81	Nonaccidental Trauma and Shaken Baby Syndrome	916
	<i>Robert C. Tasker</i>	
82	Evaluation of Coma	924
	<i>David J. Michelson and Stephen Ashwal</i>	
83	Hypoxic Ischemic Encephalopathy After Cardiorespiratory Arrest	935
	<i>Dermot R. Doherty and James S. Hutchison</i>	
84	Toxic and Metabolic Encephalopathies	947
	<i>Ashok P. Sarnaik and Kathleen L. Meert</i>	
85	Infections of the Central Nervous System	956
	<i>Simon Nadel</i>	
86	Status Epilepticus	977
	<i>Richard F.M. Chin and Rod C. Scott</i>	
87	Diseases of the Peripheral Nervous System	990
	<i>Cecil D. Hahn and Brenda L. Banwell</i>	
Section VII The Gastrointestinal Tract in Critical Illness and Injury		
88	Gastrointestinal Bleeding	1013
	<i>Renuka Mehta and Thomas P. Shanley</i>	
89	Acute Pancreatitis	1022
	<i>Raffaele Pezzilli, Paola Tomassetti, Rosa Ceciliato, and Roberto Corinaldesi</i>	
90	Liver Failure in Infants and Children	1027
	<i>Ann E. Thompson</i>	
91	Pediatric Liver Transplantation	1040
	<i>Gregory M. Tiao and Frederick C. Ryckman</i>	
92	Perioperative Management of the Pediatric Surgical Patient	1054
	<i>David E. Carney, Frederick J. Rescorla, and Jay L. Grosfeld</i>	
93	Abdominal Compartment Syndrome in Children	1073
	<i>Gad Bar-Joseph and Raphael Beck</i>	
94	Nutritional Support of the Critically Ill Child	1079
	<i>Michael S.D. Agus and Tom Jaksic</i>	
95	Nutritional Assessment of the Critically Ill Child	1090
	<i>George Briassoulis</i>	
Section VIII The Endocrine System in Critical Illness and Injury		
96	Inborn Errors of Metabolism	1103
	<i>Nancy Doan Leslie</i>	
97	Endocrine Emergencies	1111
	<i>Michael Bigham, Jennifer Kaplan, Neil W. Kooy, and Derek S. Wheeler</i>	
98	Endocrine Disorders in the Pediatric Intensive Care Unit	1125
	<i>Ruth Armano and Greet Van den Berghe</i>	
Section IX Fluids and Electrolytes in Critical Illness and Injury		
99	Renal Physiology	1143
	<i>Russell W. Chesney and Noel M. de los Santos</i>	
100	Electrolyte Disorders in the Pediatric Intensive Care Unit	1156
	<i>Gabriel J. Hauser and Aaron F. Kulick</i>	

101	Acid–Base Disorders in the Pediatric Intensive Care Unit	1176
	<i>James D. Fortenberry, Kiran Hebbar, and Derek S. Wheeler</i>	
102	Renal Diseases in the Pediatric Intensive Care Unit: Thrombotic Microangiopathy, Hemolytic Uremic Syndrome, and Thrombotic Thrombocytopenic Purpura	1189
	<i>François Proulx and Vernon L. Tesh</i>	
103	Renal Disorders in the Pediatric Intensive Care Unit: Glomerulonephritis and Nephrotic Syndrome	1204
	<i>Jen-Jar Lin and William E. Smoyer</i>	
104	Acute Renal Failure	1221
	<i>Mai T. Nguyen and John J. Bissler</i>	
105	Continuous Renal Replacement Therapy	1228
	<i>Kevin D. McBryde and Timothy E. Bunchman</i>	
106	Alternative Indications for Hemofiltration	1243
	<i>Joseph V. DiCarlo and Steven R. Alexander</i>	
107	Renal Transplantation	1250
	<i>Coral D. Hanevold, James J. Wynn, and Luis A. Ortiz</i>	
 Section X Hematologic/Oncologic Problems in Critical Illness and Injury		
108	Transfusion Medicine	1263
	<i>Jacques Lacroix, Marisa Tucci, France Gauvin, Baruch Toledano, and Heather Hume</i>	
109	Disorders of Blood Elements	1281
	<i>Niranjan Kissoon</i>	
110	Coagulation, Anticoagulation, and Hemorrhage in the Intensive Care Setting . . .	1296
	<i>Geoffrey M. Fleming, Monika Gupta, and Gail M. Annich</i>	
111	Catheter-Related Occlusion and Thrombosis	1313
	<i>Ranjit S. Chima and Brian R. Jacobs</i>	
112	Venous Thromboembolic Disease and Pulmonary Embolism in Children	1322
	<i>N. William Parilla and Brian R. Jacobs</i>	
113	Care of the Oncology Patient in the Pediatric Intensive Care Unit	1332
	<i>Robert Tamburro, Raymond C. Barfield, Monika L. Metzger, Terrence L. Geiger, Sandy Call, and Kenneth W. Gow</i>	
114	Complications Requiring Critical Care Following Hematopoietic Stem Cell Transplantation	1355
	<i>Kenneth R. Cooke, Paul Richardson, and Gregory A. Yanik</i>	
 Section XI The Immune System in Critical Illness and Injury		
115	Pharmacology of Immunosuppression	1379
	<i>John F. Sommerauer</i>	
116	Primary and Secondary Immunodeficiencies	1405
	<i>Rajesh Aneja and Alexandre T. Rotta</i>	
117	Sepsis	1421
	<i>Jan A. Hazelzet, Gertjan J.A. Driessen, Patricia Abboud, Derek S. Wheeler, Thomas P. Shanley, and Hector R. Wong</i>	
118	Multiple Organ Dysfunction Syndrome	1445
	<i>Katri Typpo and Michele Mariscalco</i>	
119	The Patient with the Human Immunodeficiency Virus in the Pediatric Intensive Care Unit	1457
	<i>Amisha Malhotra, Steven Choi, and Daniel A. Notterman</i>	

120	Nosocomial Infections in the Pediatric Intensive Care Unit	1472
	<i>Mark E. Rowin, Amit Vohra, and John C. Christenson</i>	
121	Anaphylaxis	1486
	<i>Todd A. Levin, Cristina M. Mazzoni, and Dennis R. Ownby</i>	
122	Rheumatologic Disorders in the Pediatric Intensive Care Unit	1492
	<i>Steven W. Martin and Michael R. Anderson</i>	
123	Infectious Disease-Associated Syndromes	1511
	<i>Isaac Lazar and Clifford W. Bogue</i>	

Section XII Trauma

124	Trauma Systems and Regionalization of Trauma Care	1523
	<i>Dennis R. Durbin and Michael L. Nance</i>	
125	Head and Neck Trauma	1527
	<i>Lisa Grimaldi, Charles L. Schleien, Derek A. Bruce, Amanda Yaun, and Derek S. Wheeler</i>	
126	Dental Trauma	1545
	<i>William A. Greenhill and Murray Dock</i>	
127	Maxillofacial Trauma	1551
	<i>Likith V. Reddy and Haithem Elhadi</i>	
128	Eye Trauma and Emergencies	1558
	<i>Stephanie L. Goei, Heojeng Ooi, and Julian J. Nussbaum</i>	
129	Thoracic Trauma	1565
	<i>Mindy B. Statter and Donald C. Liu</i>	
130	Abdominal Trauma	1572
	<i>Rebeccah L. Brown</i>	
131	Genitourinary Trauma	1579
	<i>R. Guy Hudson and George W. Kaplan</i>	
132	Orthopedic Trauma	1589
	<i>Charles T. Mehlman and Alvin H. Crawford</i>	
133	Pediatric Burns	1597
	<i>Grace Z. Mak, Steven R. Allen, and Richard J. Kagan</i>	

Section XIII Pharmacology and Toxicology in the Pediatric Intensive Care Unit

134	Introduction to Pharmacology	1609
	<i>James A. Besunder and John Pope</i>	
135	Toxic Exposures: Diagnosis and Management	1621
	<i>Karen S. Powers, Jill M. Cholette, and Patricia Abboud</i>	
136	Sedation and Analgesia	1642
	<i>Joseph D. Tobias</i>	
137	Procedural Sedation and Anesthesia	1668
	<i>Stephen D. Playfor and Neil S. Morton</i>	
138	Neuromuscular Blockade	1674
	<i>Nicholas B. Slamon, Mary C. Theroux, and Andrew T. Costarino, Jr.</i>	

Section XIV Environmental Emergencies

139	Envenomations	1687
	<i>James Tibballs, Christopher P. Holstege, and Derek S. Wheeler</i>	
140	Drowning and Near-Drowning	1706
	<i>Laura M. Ibsen</i>	

141	Heat Illness and Hypothermia	1714
	<i>Lynne W. Coule and William Wiers</i>	
142	Malignant Hyperthermia	1725
	<i>Richard E. Berlin and Paul J. Samuels</i>	
143	Principles of Mass Casualty and Disaster Medicine	1730
	<i>David Markenson, Gad Bar-Joseph, Michael Halberthal, and Derek S. Wheeler</i>	
144	An Overview of Chemical and Biologic Agents of Terrorism	1743
	<i>Richard B. Schwartz, Phillip L. Coule, and David Markenson</i>	
	Index	1765
