

# Contents

<b>1</b>	<b>Introduction .....</b>	<b>1</b>
	What are Multimedia Systems? .....	1
	Multimedia Delivery Systems .....	4
	Multimedia Interactivity .....	5
	What Topics does the Book Cover? .....	6
	Bibliography .....	6
 <b>Part I</b>		
<b>2</b>	<b>Perception and Data Coding .....</b>	<b>9</b>
	Introduction .....	9
	Perception of Multimedia Data .....	9
	perception of Sound .....	10
	Perception of Static Image Data .....	13
	Perception of Moving Image Data .....	15
	Capture of Multimedia Data .....	16
	Capturing Sound .....	17
	Capturing Static Image Data .....	19
	Capturing Video Data .....	22
	Coding Multimedia Data .....	24
	Coding Sound .....	25
	Coding Still Images .....	26
	Coding Video Data .....	29
	Coding/Decoding Hardware .....	31
	Conclusion .....	32
	Bibliography .....	32
<b>3</b>	<b>Organising and Delivering Multimedia Objects .....</b>	<b>33</b>
	Introduction .....	33
	A Classification of Multimedia Presentations .....	34
	What is Required of a Multimedia Presentation Design Tool? .....	37
	Characteristics of Practical Design Tools .....	38
	Implementing Multimedia Presentations Using HTML .....	39
	Good Design Practice .....	41
	Manipulating Multimedia Content .....	41
	Conclusion .....	45
	Bibliography .....	46

<b>4 Hardware to Support Multimedia Systems .....</b>	<b>47</b>
Introduction .....	47
The Multimedia PC .....	48
Peripheral Devices .....	49
Kiosk Systems .....	55
Conclusions .....	57
Bibliography .....	57
 <b>Part II</b>	
<b>5 Multimedia Interactivity .....</b>	<b>61</b>
Introduction .....	61
The Future of Multimedia Communication Systems .....	62
Theoretical Foundations .....	67
Conclusion .....	73
Bibliography .....	73
<b>6 Speech Generation .....</b>	<b>75</b>
Introduction .....	75
Physiology .....	76
Historical Speech Generating Machines .....	79
Synthesis from Stored Segments .....	81
Synthesis from Rules .....	82
Summary .....	87
Bibliography .....	88
<b>7 Speech Recognition .....</b>	<b>89</b>
Introduction .....	89
Principles Underlying Speech Recognition .....	90
Architecture of a Speech Recognition System .....	92
Representation .....	93
Classification .....	93
Recognition .....	95
Summary .....	99
Bibliography .....	100
<b>8 Head Pointing Devices .....</b>	<b>101</b>
What is a Head Pointing Device? .....	101
Where Would Head Pointing Device Be Used? .....	102
The Video Based Head Pointing Device: Hardware .....	103
Possible Software Solutions .....	107
Conclusions .....	119
Bibliography .....	120

<b>9 Gesture Recognition . . . . .</b>	<b>121</b>
Introduction . . . . .	121
Example Systems . . . . .	122
Requirements . . . . .	127
Identifying and Describing Hands and Fingers in Video Sequences . . . . .	127
Tracking Hands and Fingers in Video Sequences . . . . .	132
Representing Gestures . . . . .	133
Recognising Gestures . . . . .	134
Summary and Conclusions . . . . .	134
Bibliography . . . . .	135
<b>10 Motion Following and Interpretation . . . . .</b>	<b>137</b>
Introduction . . . . .	137
Activity Understanding Systems . . . . .	138
Information Delivery Systems . . . . .	143
Video Surveillance and Monitoring . . . . .	146
Conclusion . . . . .	150
Bibliography . . . . .	150
<b>11 Synthesising a Visual Response . . . . .</b>	<b>153</b>
Introduction . . . . .	153
Feedback . . . . .	153
An Overview of Methods of Generating and Animating Head Models . . . . .	155
Facial Animation Systems . . . . .	160
Conclusions . . . . .	161
Bibliography . . . . .	162
<b>Conclusions . . . . .</b>	<b>163</b>
The Current State of Multimedia Systems . . . . .	163
What of the Future? . . . . .	165
<b>Appendices . . . . .</b>	<b>167</b>
HTML – Hypertext Markup Language . . . . .	167
Mathematical Techniques . . . . .	179
Publicly Available Software . . . . .	185
<b>Index . . . . .</b>	<b>189</b>
