1	Historical Background	1	
	<i>V. Alt, R. Schnettler</i>		
2	Pathophysiology and Classification of Osteomyelitis	5	
	<i>R. Schnettler, V. Alt</i>		
Introduction	6	Risk Factors	8
Pathophysiology of Osteomyelitis	6	Acute Osteomyelitis	9
Pathogens	7	Subacute Osteomyelitis	9
		Chronic Osteomyelitis	10
3	Diagnosis of Osteomyelitis	15	
Radiologic Imaging	16	Diabetic Osteoarthropathy	49
<i>M. Kroetz, U. Linsenmaier, M. Reiser</i>		Delayed Union, Bone Defect, and Nonunion	52
Imaging Procedures	16	Nonunions	52
Conventional Radiography	16	Nuclear Medicine Imaging	
Ultrasound	19	of Bone Inflammations	54
Computed Tomography	20	<i>S. Adams, G. Hoer</i>	
Magnetic Resonance Imaging	21	Introduction	54
Special Imaging Procedures	22	Nuclear Medicine Imaging Procedures	56
Imaging Findings in Specific Disorders	25	Bone Scintigraphy	56
<i>M. Kroetz, U. Linsenmaier, M. Reiser</i>		Leukocyte Scintigraphy	58
Acute and Chronic Bone Infections	25	Inflammatory Imaging with ^{99m} Tc-Labeled	
Classification of Osteomyelitis	25	Antibodies	59
Special Forms of Osteomyelitis	36	⁶⁷ Galium Citrate Scintigraphy	60
Rare Forms of Osteomyelitis	38	Inflammatory Imaging with ^{99m} Tc-Labeled	
Joint Infections	38	Nanocolloids	62
Other Forms of Infectious Arthritis	45	Inflammatory Imaging with ¹⁸ F-FDG Positron	
Implant Complications	49	Emission Tomography	62
Prosthetic Loosening and Infection	49	Summary	64
4	Antibiotic Therapy	71	
Oral Antibiotic Therapy	72	Local Antibiotic Therapy	78
<i>H. Breithaupt</i>		<i>L. Frommelt</i>	
Introduction	72	Why Use Local Antibiotics to Treat Infections	
Acute Diffuse Osteomyelitis	72	of the Musculoskeletal System?	78
Chronic Osteomyelitis	73	Local Application of Antibiotics in Infections	
Antibiotic Profiles	73	of the Skeletal System	79

Antibiotics and Bone Transplants	79
Antibiotics and Plaster of Paris	79
Antibiotics and PMMA Bone Cement	80
Antibiotics and Collagen	80
Antibiotics and Other Carrier Substances— Prospects	81
Use of PMMA Bone Cement as a Carrier for Therapy and Prophylaxis	82
Antibiotics and PMMA Bone Cement	82
Limits to Local Antibiotic Therapy	85
Practical Tips for the Local Application of Antibiotics in PMMA Bone Cement	85

Prophylaxis and Therapy of Infections with Resistant Pathogens	87
<i>H. Breithaupt</i>	
Introduction	87
Antibiotic Prophylaxis	87
Antibiotic Therapy for Multiresistant Pathogens . .	88
Prevention of Infections	88
Hospital Hygiene	89
Special Measures for MRSA	90

5 Surgical Treatment of Osteomyelitis 93

Acute and Chronic Post-traumatic Osteomyelitis	94
<i>R. Schnettler</i>	
Diagnosis of Acute Osteomyelitis (Early Infection)	94
Surgical Procedure	95
Therapeutic Concept in Acute Osteomyelitis (Early Infection)	101
Early Infection of Plate Osteosynthesis	102
Early Infection after Intramedullary Nailing . . .	107
Diagnosis of Chronic Osteomyelitis (Late Infection)	112
Therapeutic Concept in Chronic Osteomyelitis (Late Infection)	112
Late Infection after Plate Osteosynthesis	112
Late Infection after Intramedullary Nailing . . .	113
Encapsulated Phlegmons of Medullary Cavities	114
Therapeutic Concept in Chronic Osteomyelitis with Defects up to 4 cm	115
Therapeutic Concept in Chronic Osteomyelitis with a Defect Larger than 4 cm	120
Local Surgical Treatment of Osteomyelitis with a Resorbable, Osteoconductive Antibiotic Carrier	126
<i>R. Kraus, U. Schiefer, R. Schnettler</i>	
Introduction	126
Form of Application, Chemical Composition, and Available Antibiotics	126

Elution Characteristics, Local Effective Levels, Systemic Effective Levels	127
Clinical Application	128
Case Study 1	129
Case Study 2	130
Case Study 3	132
Callus Distraction of the Lower Leg— Ilizarov Method	133
<i>H. G. K. Schmidt</i>	
Principle of Segment Transport	133
Mounting the Ring-Fixator onto the Lower Leg . .	135
Corticotomy	144
Performing Segment Transport	145
Hematogenous Infection of Bones and Joints . .	152
<i>K. Parsch</i>	
Terms	152
Acute Hematogenous Osteomyelitis	153
Subacute or Chronic Osteomyelitis (Bone Abscess)	157
Septic Arthritis	164
Septic Arthritis of the Hip Joint (Coxitis)	
Arthrotomy of the Hip Joint	166
Hematogenous Arthritis of the Knee Joint (Gonitis)	
Arthroscopy of the Knee Joint	168

6 Plastic and Reconstructive Surgery 173

M. Lehnhardt, H.-H. Homann, H.-U. Steinau

General Comments	174	Elbow and Forearm	188
Primary Treatment and Prevention		Pelvis/Thigh/Knee	194
of Post-traumatic Osteomyelitis	174	Lower Leg	201
Cleaning out the Infection and Covering		Ankle and Foot	211
the Soft-Tissue Defect	174	Maintaining and Lengthening an Amputation	
Flaps	177	Stump in Chronic Osteomyelitis	225
Special Section: Covering a Defect	181	Morbidity of the Donor Site	227
Skull	181		
Shoulder Girdle and Upper Arm	184		

7 Treatment of Infected Prostheses 231

Total Replacements of the Knee and Hip 232

T. Gehrke

Introduction	232
Diagnosis	233
Planning the Operation	237
Therapeutic Concept	238
Exchange of Septic Hip Prosthesis	239
Surgical Preparations	239
Choice of Implants	239
Approach	240
Technique for Explantation of Prostheses	
(Cemented Shafts)	242
Exchange of Septic Knee Prostheses	254
Informed Consent	254
Surgical Preparations	255
Choice of Implant	255
Operative Technique	255
Postoperative Care	263
Case Study of Arthrodesis	265

Two-Stage Exchange of a Total Knee Replacement Using a Temporary Antibiotic Spacer

Prosthesis 269

S. Hofmann, M. Pietsch, Ch. Wenisch

Treatment Concept	269
Therapeutic Concept in Placement	
of a Temporary Antibiotic Spacer Prosthesis	272
Phase 1: Implantation of the Spacer Prosthesis	272
Phase 2: Postoperative Interval	274
Phase 3: Reimplantation of the TKR	275
Phase 4: Postoperative Interval	275
Surgical Procedure	276
Phase 1: Implantation of the Spacer Prosthesis	276
Phase 2: Postoperative Interval	279
Phase 3: Reimplantation of the TKR	
in the Absence of Clinical or Laboratory	
Signs of Infection	280

8 Special Arthrodeses for Infected Joints 287

V. Heppert

Knee Joint 289

Surgical Concepts	291
Therapeutic Concept: Eradication of the Infection	
by Means of Primary Arthrodesis with an	
External Fixator	293
Soft Tissues	293
Bones	293
Alternative Techniques of Bone Stabilization	296

Ankle (Talocrural) Joint 298

Eradication of Infection by Means of Primary	
Arthrodesis with an External Fixator	
and Charnley Clamp	301
Alternative Bone Stabilizing Procedures	304
Screw Osteosynthesis	304
Arthrodesis Nail	304

Index 307
