

Table of Contents

1. OVERVIEW

Interpretability improvements to find the balance interpretability-accuracy in fuzzy modeling: an overview 3

J. Casillas, O. Cordon, F. Herrera, L. Magdalena

2. IMPROVING THE INTERPRETABILITY WITH FLEXIBLE RULE STRUCTURES

Regaining comprehensibility of approximative fuzzy models via the use of linguistic hedges 25

J.G. Marín-Blázquez, Q. Shen

Identifying flexible structured premises for mining concise fuzzy knowledge 54

N. Xiong, L. Litz

3. COMPLEXITY REDUCTION IN LINGUISTIC FUZZY MODELS

A multiobjective genetic learning process for joint feature selection and granularity and contexts learning in fuzzy rule-based classification systems 79

O. Cordon, M.J. del Jesus, F. Herrera, L. Magdalena, P. Villar

Extracting linguistic fuzzy models from numerical data-AFRELI algorithm 100

J. Espinosa, J. Vandewalle

Constrained optimization of fuzzy decision trees 125
P.-Y. Glorennec

A new method for inducing a set of interpretable fuzzy partitions and fuzzy inference systems from data 148
S. Guillaume, B. Charnomordic

A feature ranking algorithm for fuzzy modelling problems 176
D. Tikk, T.D. Gedeon, K.W. Wong

Interpretability in multidimensional classification 193
V. Vanhoucke, R. Silipo

4. COMPLEXITY REDUCTION IN PRECISE FUZZY MODELS

Interpretable semi-mechanistic fuzzy models by clustering, OLS and FIS model reduction 221
J. Abonyi, H. Roubos, R. Babuška, F. Szeifert

Trade-off between approximation accuracy and complexity: TS controller design via HOSVD based complexity minimization 249
P. Baranyi, Y. Yam, D. Tikk, R.J. Patton

Simplification and reduction of fuzzy rules 278
M. Setnes

Effect of rule representation in rule base reduction 303
T. Sudkamp, A. Knapp, J. Knapp

Singular value-based fuzzy reduction with relaxed normalization condition 325
Y. Yam, C.T. Yang, P. Baranyi

5. INTERPRETABILITY CONSTRAINTS IN TSK FUZZY RULE-BASED SYSTEMS

Interpretability, complexity, and modular structure of fuzzy systems 355
M. Bikdash

Hierarchical genetic fuzzy systems: accuracy, interpretability and design autonomy	379
<i>M.R. Delgado, F. von Zuben, F. Gomide</i>	
About the trade-off between accuracy and interpretability of Takagi-Sugeno models in the context of nonlinear time series forecasting	406
<i>A. Fiordaliso</i>	
Accurate, transparent and compact fuzzy models by multi-objective evolutionary algorithms	431
<i>F. Jiménez, A.F. Gómez-Skarmeta, G. Sánchez, H. Roubos, R. Babuška</i>	
Transparent fuzzy systems in modeling and control	452
<i>A. Riid, E. Rüstern</i>	
Uniform fuzzy partitions with cardinal splines and wavelets: getting interpretable linguistic fuzzy models	477
<i>A.R. de Soto</i>	

6. ASSESSMENTS ON THE INTERPRETABILITY LOSS

Relating the theory of partitions in MV-logic to the design of interpretable fuzzy systems	499
<i>P. Amato, C. Manara</i>	
A formal model of interpretability of linguistic variables	524
<i>U. Bodenhofer, P. Bauer</i>	
Expressing relevance and interpretability of rule-based systems	546
<i>W. Pedrycz</i>	
Conciseness of fuzzy models	568
<i>T. Suzuki, T. Furuhashi</i>	
Exact trade-off between approximation accuracy and interpretability: solving the saturation problem for certain FRBSs	587
<i>D. Tikk, P. Baranyi</i>	

7. INTERPRETATION OF BLACK-BOX MODELS AS FUZZY RULE-BASED MODELS

Interpretability improvement of RBF-based neurofuzzy systems using
regularized learning 605

Y. Jin

Extracting fuzzy classification rules from fuzzy clusters on the basis
of separating hyperplanes 621

B. von Schmidt, F. Klawonn
