

Table of Contents

1. OVERVIEW

- Accuracy improvements to find the balance interpretability-accuracy
in linguistic fuzzy modeling: an overview 3
J. Casillas, O. Cordón, F. Herrera, L. Magdalena

2. ACCURACY IMPROVEMENTS CONSTRAINED BY INTER- PRETABILITY CRITERIA

- COR methodology: a simple way to obtain linguistic fuzzy models 27
with good interpretability and accuracy
J. Casillas, O. Cordón, F. Herrera
- Constrained optimization of genetic fuzzy systems 46
F. Cheong, R. Lai
- Trade-off between the number of fuzzy rules and their classification 72
performance
H. Ishibuchi, T. Yamamoto
- Generating distinguishable, complete, consistent and compact fuzzy 100
systems using evolutionary algorithms
Y. Jin
- Fuzzy CoCo: balancing accuracy and interpretability of fuzzy models 119
by means of coevolution
C.A. Peña-Reyes, M. Sipper
- On the achievement of both accurate and interpretable fuzzy systems 147
using data-driven design processes
J. Valente de Oliveira, P. Fazendeiro

3. EXTENDING THE MODELING PROCESS TO IMPROVE THE ACCURACY

Linguistic hedges and fuzzy rule based systems	165
<i>C.-Y. Chen, B.-D. Liu</i>	
Automatic construction of fuzzy rule-based fuzzy systems: A trade-off between complexity and accuracy maintaining interpretability	193
<i>H. Pomares, I. Rojas, J. González</i>	
Using individually tested rules for the databased generation of interpretable rule bases with high accuracy	220
<i>T. Slawinski, P. Krause, H. Kiendl</i>	

4. EXTENDING THE MODEL STRUCTURE TO IMPROVE THE ACCURACY

A description of several characteristics for improving the accuracy and interpretability of the fuzzy rule learning algorithms	249
<i>E. Aguirre, A. González, R. Pérez</i>	
An iterative learning methodology to design hierarchical systems of linguistic rules for linguistic modeling	277
<i>R. Alcalá, O. Cordón, F. Herrera, I. Zwir</i>	
Learning default fuzzy rules with general and punctual exceptions	302
<i>P. Carmona, J.L. Castro, J.J. Castro-Schez, M. Laguna</i>	
Integration of fuzzy knowledge	338
<i>T.-P. Hong, C.-H. Wang, S.-S. Tseng</i>	
Tuning fuzzy partitions or assigning weights to fuzzy rules: which is better?	366
<i>L. Sánchez, J. Otero</i>
