|--|----|
| Preface and acknowledgments  | v  |
| 1 Introduction<br>V.A. Vasil'ev and E.B. Yanovskaya  | 1  |
| I Noncooperative game theory and social choice   | 19 |
| 2 A probabilistic model of social choice<br>E.B. Yanovskaya  | 21 |
| 3 Equilibrium points in general noncooperative games<br>and their mixed extensions<br>E.B. Yanovskaya            | 33 |
| 4 On the theory of optimality principles for<br>noncooperative games<br>V. Lapitsky                              | 57 |
| II Cooperative game theory   | 77 |
| 5 A sufficient condition for the coincidence of the core of<br>a cooperative game with its solution<br>G. Diubin | 79 |
| 6 On the Shapley function for games with an infinite<br>number of players<br>G. Diubin                           | 83 |

|                       |  |     |
|-----------------------|--|-----|
| 7                     | Cores and generalized NM-solutions for some classes of cooperative games<br>V.A. Vasil'ev            | 91  |
| III Bargaining theory |  | 151 |
| 8                     | The linear bargaining solution<br>S. Pechersky   | 153 |
| 9                     | On the superlinear bargaining solution<br>S. Pechersky   | 165 |
| 10                    | Stable compromises under corrupt arbitration<br>N.S. Kukushkin                                       | 175 |
| IV Equilibrium theory |  | 179 |
| 11                    | Stability of economic equilibrium<br>F.L. Zak  | 181 |
| 12                    | An algorithmic approach for searching an equilibrium in fixed budget exchange models<br>V.I. Shmyrëv | 217 |
| 13                    | Equilibrated states and theorems on the core<br>V.I. Danilov and A.I. Sotskov                        | 237 |
|                       | List of editors and authors  | 251 |
