1	Peatlands and the Boreal Forest	1
	R. KELMAN WIEDER, DALE H. VITT, and BRIAN W. BENSCOTER	
2	Functional Characteristics and Indicators of Boreal Peatlands	9
	Dale H. Vitt	
2.1	Introduction	9
2.2	Peatland Initiation	10
2.3	Critical Factors for Peatland Diversification	10
2.3.1	Hydrology	11
2.3.2	Climate	11
2.3.3	Vegetation and Flora	14
2.3.4	Vegetation Comparisons	15
2.3.5	Floristic Indicators	16
2.3.6	Substrate	17
2.3.7	Chemistry	17
2.4	The Functional Grades of Boreal Wetlands	19
2.4.1	The Wetland Grade	19
2.4.2	The Peatland Grade	20
2.4.3	The Fen Grade	20
2.4.4	The Bog Grade	21
2.5	Conclusions	21
	References	22
3	The Postglacial Development of Boreal and Subarctic Peatlands	25
	PETER KUHRÝ and JUKKA TURUNEN	
3.1	Introduction	25
3.2	Study area	26
3.3	Methods	26

3.4	Regional Patterns in Peatland Development	28
3.4.1	Peat Inception and Cessation Dates	28
3.4.2	Peatland Lateral Expansion Rates	29
3.5	Developmental Pathways in Peatlands	31
3.5.1	Primary Peatland Formation, Paludification, and Terrestrialization	31
3.5.2	Vegetation Succession and Pattern Development	32
3.6	The Effects of Fire and Permafrost	34
3.6.1	Peat Fires	34
3.6.2	Permafrost Dynamics	35
3.7	Peat Accumulation Rates	37
3.7.1	Concepts	37
3.7.2	Regional Patterns	38
3.8	Conclusions	40
