

## Contents

---

<b>General Information</b>	.....	1
<b>Sign 1</b>	No enhancement .....	6
<b>Sign 2</b>	Slow wash-in .....	8
<b>Sign 3</b>	Medium wash-in .....	10
<b>Sign 4</b>	Fast wash-in .....	12
<b>Sign 5</b>	Plateau curve .....	14
<b>Sign 6</b>	Rising curve .....	16
<b>Sign 7</b>	Washout curve .....	18
<b>Sign 8</b>	Round shape .....	20
<b>Sign 9</b>	Oval shape .....	22
<b>Sign 10</b>	Lobulated shape .....	24
<b>Sign 11</b>	Irregular shape .....	26
<b>Sign 12</b>	Well-circumscribed margins .....	28
<b>Sign 13</b>	Irregular margins .....	30
<b>Sign 14</b>	Blooming sign .....	32
<b>Sign 15</b>	Constant sharpness sign .....	34
<b>Sign 16</b>	Homogeneous enhancement .....	36
<b>Sign 17</b>	Heterogeneous enhancement .....	38
<b>Sign 18</b>	Centrifugal enhancement .....	40
<b>Sign 19</b>	Centripetal enhancement .....	42
<b>Sign 20</b>	Dark internal septations .....	44
<b>Sign 21</b>	Enhancing internal septations .....	46
<b>Sign 22</b>	Segmental enhancement .....	48
<b>Sign 23</b>	Inflow enhancement .....	50
<b>Sign 24</b>	Regional unilateral enhancement .....	52
<b>Sign 25</b>	Multiple unilateral regional enhancement .....	54
<b>Sign 26</b>	Multiple bilateral regional enhancement .....	56
<b>Sign 27</b>	Diffuse unilateral enhancement .....	58
<b>Sign 28</b>	Diffuse bilateral enhancement .....	60
<b>Sign 29</b>	Stippled enhancement .....	62
<b>Sign 30</b>	Cobblestone enhancement .....	64

---

<b>Sign 31</b>	Reticular (dendritic) enhancement .....	66
<b>Sign 32</b>	Hypointensity on T2-weighted TSE images .....	68
<b>Sign 33</b>	Isointensity on T2-weighted TSE images .....	70
<b>Sign 34</b>	Hyperintensity on T2-weighted TSE images .....	72
<b>Sign 35</b>	Hook sign .....	74
<b>Sign 36</b>	Root sign .....	76
<b>Sign 37</b>	Pectoralis muscle invasion .....	78
<b>Sign 38</b>	Unilateral perifocal edema .....	80
<b>Sign 39</b>	Unilateral edema .....	82
<b>Sign 40</b>	Intact ligament sign .....	84
<b>Sign 41</b>	Disrupted ligament sign .....	86
<b>Sign 42</b>	Prepectoral unilateral edema .....	88
<b>Sign 43</b>	Intact nipple line .....	90
<b>Sign 44</b>	Disrupted nipple line .....	92
<b>Sign 45</b>	Unilateral precontrast high intraductal signal on T1-weighted images .....	94
<b>Sign 46</b>	Bilateral precontrast high intraductal signal on T1-weighted images .....	96
<b>Sign 47</b>	Nipple retraction .....	98
<b>Sign 48</b>	Asymmetric nipple enhancement .....	100
<b>Sign 49</b>	Diffuse unilateral skin thickening .....	102
<b>Sign 50</b>	Normal lymph nodes .....	104
<b>Sign 51</b>	Small round lymph nodes .....	106
<b>Sign 52</b>	Large lymph nodes .....	108
<b>Sign 53</b>	Pleural effusion <7 mm .....	110
<b>Sign 54</b>	Pleural effusion >7 mm .....	112
<b>Sign 55</b>	Eclipse sign .....	114
<b>Sign 56</b>	Signet ring sign .....	116
<b>Sign 57</b>	Shot-through sign .....	118
<b>Sign 58</b>	Unchanged enhancement curve .....	120
<b>Sign 59</b>	Changed enhancement curve .....	122
<b>Sign 60</b>	“Taller than wide” sign .....	124
<b>Sign 61</b>	“Wider than tall” sign .....	126
<b>Sign 62</b>	Punched-out sign .....	128
<b>Sign 63</b>	Bilateral symmetric edema .....	130
<b>Sign 64</b>	Skin retraction .....	132
<b>Sign 65</b>	Increased choline .....	134
<b>Sign 66</b>	$ADC < 1.4 \times 10^{-3} \text{ mm}^2/\text{s}$ .....	136
<b>Sign 67</b>	$ADC > 1.4 \times 10^{-3} \text{ mm}^2/\text{s}$ .....	138
<b>Sign 68</b>	Half-moon sign .....	140
<b>Sign 69</b>	Shrinking star sign .....	142
<b>Sign 70</b>	Clustered ring enhancement .....	144

Sign 71	Decrescendo sign .....	146
Sign 72	Crescendo sign .....	148
Sign 73	Staccato sign .....	150
Sign 74	Interrupted retroglandular fat layer .....	152
Sign 75	Continuous vessel sign .....	154
Sign 76	Antibiotic response sign .....	156
Sign 77	Antibiotic nonresponse sign .....	160
Sign 78	Vessel sign .....	162
Sign 79	Comet sign .....	164
Sign 80	Focal skin thickening .....	166
Sign 81	Permanent asymmetry of the breasts .....	168
Sign 82	Increasing asymmetry of the breasts .....	170
Sign 83	Precontrast signal too low .....	172
Sign 84	Precontrast signal too high .....	174
Sign 85	Maximum initial signal increase lower than the malignant threshold .....	176
Sign 86	Maximum initial signal increase within the malignant range .....	178
Sign 87	Maximum initial signal increase above the malignant threshold .....	180
Sign 88	Pseudocentric enhancement .....	182
Sign 89	Clip sign .....	184
Sign 90	Fat-water cyst .....	186
Sign 91	Unilateral hormone reversal sign .....	188
Sign 92	Bilateral hormone reversal sign .....	190
Sign 93	Hormone nonreversal sign .....	192
Sign 94	Intravascular contrast sign .....	194
Sign 95	Pectoralis pseudolesion .....	196
Sign 96	Tumor recovery sign .....	198
Sign 97	Incorrect shimming sign .....	200
Sign 98	Patchwork sign .....	202
Sign 99	Increased unilateral subcutaneous vascular density .....	204
Sign 100	Increased bilateral subcutaneous veins .....	206
Sign 101	Special STIR signal intensity pattern .....	208
Sign 102	Linguine sign .....	210
Sign 103	Pull-away sign .....	212
Sign 104	Keyhole sign .....	214
Sign 105	Extracapsular silicone sign .....	216
Sign 106	Pouch sign .....	218
Sign 107	Wavy line sign .....	220
Sign 108	Gel bleed sign .....	222
Sign 109	Focal ductal fluid sign .....	224
Sign 110	Two-chamber sign .....	226

<b>Sign 111</b>	Blood-water cyst .....	228
<b>Sign 112</b>	Blackberry sign .....	230
<b>Sign 113</b>	Tram lines .....	232
<b>Sign 114</b>	Fat separation sign .....	234
<b>Sign 115</b>	Bilateral pectoralis degeneration sign .....	236
<b>Sign 116</b>	Unilateral pectoralis atrophy sign .....	238
<b>Sign 117</b>	Intact retroglandular fat layer .....	240
<b>Sign 118</b>	STIR-selective perifocal edema .....	242
<b>Sign 119</b>	Border sign .....	244
<b>Sign 120</b>	Cross-talk sign .....	246
<b>Sign 121</b>	Unilateral subcutaneous rim enhancement .....	248
<b>Sign 122</b>	Intense peripheral rim on postcontrast STIR .....	250
<b>Sign 123</b>	Increased unilateral nipple enhancement .....	252
<b>Sign 124</b>	Small perifocal enhancement .....	254
<b>Sign 125</b>	Large perifocal enhancement .....	256
<b>Sign 126</b>	Dark heart sign .....	258
<b>Sign 127</b>	Unilateral subcutaneous edema .....	260
<b>Sign 128</b>	Stacked beads sign .....	262
<b>Sign 129</b>	Corona sign .....	264
<b>Sign 130</b>	Drapery sign .....	266
<b>Sign 131</b>	Crossing edema sign .....	268
<b>Sign 132</b>	Duct obstruction sign .....	270
<b>Sign 133</b>	Duct nonobstruction sign .....	272
<b>Sign 134</b>	Donut sign .....	274
<b>Sign 135</b>	Camouflage sign .....	276
<b>Sign 136</b>	Dissolving cancer sign .....	278
<b>Sign 137</b>	Melting candies sign .....	280
<b>Sign 138</b>	Constant candies sign .....	282
<b>Sign 139</b>	Bright T2w cancer .....	284
<b>Sign 140</b>	Enhancing pectoralis .....	286
<b>Sign 141</b>	Resolving edema sign .....	288
<b>Sign 142</b>	Recurrent border cancer .....	290
<b>Sign 143</b>	Bright round lymph nodes on T2-weighted TSE images .....	292
<b>Sign 144</b>	Normal cardiac and aortic enhancement .....	294
<b>Sign 145</b>	Increasing unilateral vessel sign .....	296
<b>Sign 146</b>	Increasing bilateral vessel sign .....	298
<b>Sign 147</b>	Lesion with high precontrast signal intensity .....	300
<b>References</b>	.....	302
