

Table of contents

Figures	XIII
Tables	XV
Acronyms	XVII
1 Introduction	1
1.1 Research problem and relevance of the study	1
1.2 Research questions and objective.....	4
1.3 Outline of the study	5
2 R&D, innovation and co-operation	9
2.1 Definitions and characteristics of R&D and innovation	9
2.1.1 Technology, R&D and innovation.....	9
2.1.1.1 Technology	9
2.1.1.2 Research and development.....	10
2.1.1.3 Innovation	15
2.1.2 Technology, R&D and innovation management.....	16
2.1.3 Sources of innovation.....	18
2.1.3.1 Internal value chain functions	20
2.1.3.2 External value chain	21
2.1.3.3 Competitors and related industries	21
2.1.3.4 Government/public authorities.....	22
2.1.3.5 Universities, public and private laboratories	23
2.2 Definitions and characteristics of collaborative R&D projects.....	29
2.2.1 Collaborative R&D.....	29
2.2.2 Levels of collaborative R&D and parties involved	31
2.2.3 Organizational forms of collaborative partnerships	33
2.2.4 Project-based collaboration.....	38
2.2.5 Motives of collaborative R&D projects.....	40
2.3 Collaborative R&D in the chemical and biological sciences	44
2.3.1 General trends in collaborative R&D in chemistry and biology.....	44
2.3.2 University-industry collaboration in chemistry and biology	48
3 Knowledge	53
3.1 Definitions and characteristics of knowledge.....	53
3.1.1 Delineation of knowledge from information and data	53
3.1.2 The DIKW hierarchy	56
3.1.3 Knowledge dimensions	60

3.1.3.1	Tacit and explicit knowledge.....	60
3.1.3.2	Personal and social knowledge	62
3.2	Creation and sharing of knowledge	64
3.2.1	Organizational knowledge creation	64
3.2.1.1	Modes of knowledge conversion	64
3.2.1.2	The spiral of organizational knowledge creation.....	68
3.2.1.3	Enabling conditions for knowledge creation.....	69
3.2.2	Knowledge sharing.....	70
3.2.2.1	Delineation of knowledge sharing from technology transfer	71
3.2.2.2	Basic principles of knowledge sharing	72
3.3	Characteristics of knowledge in chemistry and biology	77
3.3.1	Positioning chemistry and biology in the system of sciences	78
3.3.2	Scientific methodology	80
3.3.3	Tacit and explicit knowledge in chemistry and biology	83
4	Conceptual framework and hypotheses.....	91
4.1	Theoretical considerations of knowledge sharing in co-operation projects.....	91
4.2	Empirical research on knowledge sharing in co-operation projects.....	99
4.3	Meta-analysis of factors affecting knowledge sharing	112
4.4	Development of hypotheses.....	118
4.4.1	Object to share: Knowledge characteristics	119
4.4.1.1	Knowledge tacitness.....	119
4.4.1.2	Knowledge newness.....	120
4.4.2	Sharing context: Physical proximity.....	121
4.4.3	Process of sharing: Frequency of communication.....	122
4.4.4	Source and recipient: Relationship characteristics.....	123
4.4.4.1	Trust between partners.....	123
4.4.4.2	Pre-existing relationships between partners	124
4.4.4.3	Interdependency of partners.....	125
4.4.4.4	Redundancy in the partners' knowledge bases	126
4.4.4.5	Tie strength: Closeness of partners.....	128
4.5	Synopsis of hypotheses	129
5	Analysis and results.....	131
5.1	Sample and data collection	131
5.1.1	Information on the survey.....	131
5.1.2	Information on the sample.....	136
5.2	Measures	142
5.2.1	Scales and measurement models.....	142

5.2.2	Objectivity, reliability and validity of measures	144
5.2.3	Construct operationalization.....	150
5.2.4	Assessment of nonresponse bias	159
5.3	Results of analysis	160
5.3.1	Descriptive statistics.....	160
5.3.2	Analytical procedures.....	167
5.3.3	Testing assumptions for multiple regression analysis	172
5.3.4	Testing of hypotheses	173
6	Discussion of findings and implications for theory and practice	181
6.1	Discussion of information on sample and descriptive statistics.....	181
6.2	Discussion of multivariate statistics and theoretical implications.....	186
6.2.1	Object to share: Knowledge characteristics	187
6.2.1.1	Knowledge tacitness.....	187
6.2.1.2	Knowledge newness.....	190
6.2.2	Sharing context: Physical proximity.....	193
6.2.3	Process of sharing: Frequency of personal communication.....	196
6.2.4	Source and recipient: Relationship characteristics.....	198
6.2.4.1	Trust between partners.....	199
6.2.4.2	Pre-existing relationships between partners.....	200
6.2.4.3	Interdependency of partners.....	203
6.2.4.4	Redundancy in the partners' knowledge bases	204
6.2.4.5	Closeness of partners.....	206
6.2.5	Control variables	208
6.2.6	Synopsis of theoretical implications	209
6.3	Practical implications.....	211
6.4	Limitations and future research opportunities.....	217
7	Conclusion.....	221
	Appendices	227
	References	237
