

# Table of Contents

Overview of Contents .....	XI
Table of Contents .....	XIII
List of Figures .....	XVII
List of Tables .....	XIX
List of Abbreviations .....	XXI
<b>1 Introduction .....</b>	<b>1</b>
1.1 Problem statement and motivation.....	1
1.2 Research questions and objectives.....	3
1.3 Overview of research methodology.....	4
1.4 Organization and evolutionary context of study .....	7
<b>2 Conceptual foundations .....</b>	<b>11</b>
2.1 Media content and content allocation.....	11
2.1.1 Media content.....	12
2.1.2 Content allocation .....	14
2.2 Publishing companies .....	17
<b>3 Causal model specification .....</b>	<b>21</b>
3.1 Generic selection process of theoretical lenses .....	21
3.2 Logic and selection of reference theories.....	22
3.2.1 Selection criteria for reference theories.....	23
3.2.2 Selection of reference theories.....	24
3.2.3 Applied reference theories in the state-of-the-art literature .....	32
3.2.4 Framework of comparative institutional performance .....	34
3.3 Hypotheses from selected theoretical lenses.....	36
3.3.1 A transaction cost perspective on content allocation.....	36
3.3.2 A resource-based view on the content allocation problem .....	49

---

3.3.3	A contingency approach to content allocation.....	63
3.4	Interplay and integration of reference theories.....	83
3.5	Synopsis of hypotheses and path model.....	86
<b>4</b>	<b>Empirical test of the content allocation model.....</b>	<b>91</b>
4.1	Fundamentals of structural equation modeling.....	91
4.2	Operationalization of research constructs.....	95
4.2.1	Content allocation behavior.....	97
4.2.2	Comperative advantage variables.....	99
4.2.3	Content-, production process-, and market-related characteristics .	103
4.2.4	Contingency variables.....	107
4.2.5	Overview of formative and reflective measurement constructs .....	113
4.3	Data collection.....	115
4.3.1	Questionnaire design.....	115
4.3.2	Sample selection.....	117
4.3.3	Mailing procedure.....	118
4.3.4	Survey response.....	119
4.4	Sample characteristics.....	121
4.4.1	Key informant demographics.....	122
4.4.2	Content allocation behavior.....	123
4.4.3	Descriptives about publisher sub-types.....	126
4.5	Model estimation and evaluation.....	129
4.5.1	Estimation procedures in structural equation modeling.....	130
4.5.2	Selection of appropriate estimation and evaluation procedure.....	132
4.5.3	Measurement model assessment.....	135
4.5.4	Structural model assessment.....	146
4.6	Recapitulation.....	156

---

<b>5 Discussion of model findings .....</b>	<b>161</b>
5.1 Theoretical implications.....	161
5.1.1 Content allocation behavior of publishing firms.....	161
5.1.2 Comparative advantage criteria and related characteristics.....	165
5.1.3 Contingency factors .....	170
5.2 Practical implications.....	174
5.3 Study limitations.....	180
5.4 Future research.....	183
<b>6 Conclusion.....</b>	<b>187</b>
Literature .....	191
Appendix.....	219
Appendix A: State-of-the-art in content allocation research.....	219
Appendix B1: Initial Print cover letter .....	221
Appendix B2: Follow-up E-Mail cover letter .....	222
Appendix C1: Questionnaire in German .....	223
Appendix C2: Questionnaire in English.....	230
Appendix D: Reliability assessment and cross-loadings.....	237
Index.....	245
