List of Contents

Foreword VII

Preface IX

List of Figures XV

List of Tables XVII

A. Organizational Intervention Skills as Corporate Competence 1

I. The Need for and the Challenges of Organizational Interventions 1

II. Foundation and Strategies for Planned Change Interventions 10

III. The Usage of System Dynamics Modeling in Organizational Interventions 15

B. Conceptual Foundation for the Usage of System Dynamics 27

I. The Usage and Utility of Modeling in Decision-Making 27

II. Cognitive and Behavioral Rationale for the Usage of System Dynamics 35

1. Individual Learning and Change of Behavior in a Complex and Dynamic Environment 35

2. Establishing Group Consensus by Sharing Mental Models 46

3. Enhancing Organizational Learning through System Thinking Experience and Double-Loop Learning 51

III. The Development Process of System Dynamics Models in Corporations 56

1. Decompositions and Iterations in Model Development 58

a. Problem Definition and System Conceptualization 58

b. Model Formulation and Testing 62

c. Policy Formulation and Implementation 66

2. Designing System Dynamics Modeling-Based Interventions ... 68

a. Experimentation-Based Learning Cycles 68

b. Knowledge Acquisition in Modeling Projects 71

c. Designing Participative Modeling Interventions 73

d. Facilitation of Participative Modeling Interventions 77

C. A Case Study Using Participative System Dynamics Modeling in the Implementation of a Sensitive Change Project 83

I. Research Considerations for the Case Study Application 83

II. Case Study: Refining and Implementing a Location Strategy 89

1. The Problem and its Context 89

2. Intervention Process 93

3. The Model and Selected Simulations 98

III. Evaluation of the Case Study 108

1. A Framework for Evaluating the Effectiveness and Efficiency of the Case Study 108

2. Conclusions on Case Study Effectiveness and Efficiency 116

D. The Usage and Utility of Participative Modeling in Change Management 119

I. Context Factors Relevant for Deciding on Usage of Modeling in Change Management 120

II. Process Considerations 128

1. Business Objectives and Targets Directing and Framing the Intervention 131
2. Structured Development of Change Leaders 135
3. Designing the Change Process 140
4. Facilitation of modeling and simulation sessions 148

III. Outcomes of Participative Modeling Efforts in the Implementation of Change Programs 155

1. Modeling and simulation as a tool for transfering insights and ownership from decision-makers to implementers 155
2. Refining and Aligning Implementation Plans Through Scenario Simulation 157
3. Organizational Learning in Change Management Oriented Modeling 158

E. Targeted Participative Modeling in Change Management 161

Appendices 165

Bibliography 201
